SOUNDSTART: AUDIO ENGINEERING

Program Description

Welcome to an exciting journey into the dynamic world of audio engineering! SoundStart: Audio Engineering is a 4-credit educational program offering secondary school students the opportunity to explore sound and music creation while earning valuable dual credits. This career-focused program provides a comprehensive exploration of traditional studio techniques and proficiency in Ableton Live, a leading software in contemporary audio production.

Students will gain hands-on experience, develop both technical and creative skills, and build a strong foundation for future success in the evolving audio industry.

Career Opportunities
